

Innovative Lighting Solutions

Magic Lite Celebrates 32 years in the lighting industry!

Over the past three decades Magic Lite has continually been an innovator and leader with architectural and specialty lighting products. Magic Lite prides itself on our dedicated Customer Service team and our knowledgeable National Sales force. We are very fortunate to have an amazing team of professionals that we have promoted within our organization.

Effective January 2017, Cari-Ann Young-Murphy will assume the role of Projects Quotations and Inside Sales. Cari-Ann has been with Magic Lite for over 11 years and has held various positions within the company. Kara Wenner who has been the first friendly voice you hear when you call Magic Lite, is now an integral part of the Inside Sales and Customer Service team. We are also pleased to announce our new Receptionist and Order Entry Clerk Haley Stelmach. Christian Galoiu, our Quality Assurance Manager will continue as Technical Support for our Customer Service team.

LTSPRO IDEX 2016 Gold Award

Magic Light, recently received the IDEX 2016 Gold Award for design and innovative features on our new [LTSPRO](#).

IDEXCanada is Canada's National Design +Architecture Exposition & Conference, and is co-presented by IDC, Interior Designers of Canada and RAIC, Royal Architectural Institute of Canada. The annual show focuses on all areas of design including workplace, healthcare, hospitality, retail, residential, education, architecture, landscape architecture, lighting and sustainability, wellness and accessibility.

On November 30 and December 1 IDEX Canada celebrated 32 years at the Metro Toronto Convention Centre in the North Building.

The new LTSPRO has become the benchmark reference for task lighting and is currently available in four sizes 12", 18", 24" and 32". In early 2017, the LTSPRO will be available in a 9" unit, as well as a switched junction box for easy and safe installations. This sleek fixture is available in four housing colours (white, black, satin nickel and bronze). The colour temperature can be adjusted directly from the unit (2700K-3300K and 4000K) and also features a Hi-Low switch and can be either hardwired or plugged in using the included six-foot power cord, or 3/8" connector. The LTSPRO is cETLus and Energy Star listed, edge lit technology to eliminate hot spots, dimmable with an ELV dimmer and is 90 CRI, making LTSPRO the best in the business!

Feature Product: SWITCHEX Dimmer + Driver

SWITCHEX simplifies LED array lighting systems by combining an in-wall LED dimmer switch and power supply into a single integrated unit. SWITCHEX mounts in a standard in-wall switch box, accepts 120V AC and converts to low voltage DC. SWITCHEX is compatible with 2-channel 12V and 24VDC tape lights and fixtures. The 100W 24V DC unit will be available Feb. 2017 and the 60W 12V DC available March 2017.

FEATURES & BENEFITS

- First LED Driver+ In-Wall Dimmer Switch in one unit.
 - Simplifies LED installation by eliminating compatibility issues between driver and dimmer.
 - Fits in a standard recessed electrical box.
 - 100% - 1% smooth dimming.
 - No minimum load.
 - Single Pole preset dimmer with on/off push switch.
 - Adjustable voltage output dial to address voltage drop.
 - Includes voltage barrier partition to install high and low voltage circuit in same switch box.
 - No derating required when ganging units.
- Power failure memory: If power is interrupted, SWITCHEX will return to setting prior to interruption.
 - 3 face plates included: White, Light Almond, and Dark Brown (trim plates not included).

Feature Application: St. George Cathedral – Kingston, ON

Project Scope:

Replace existing T12 single lamp linear fluorescent with an LED alternative

Product Used:

[LED Hard Strip](#)
