Magic Lite has been an innovator and leader in architectural and specialty lighting products. Our product range covers a broad spectrum including task lighting, linear lighting, general area lighting (LED down lights), landscape, decorative and more. We integrate the latest in LED and traditional technologies into our products giving you the best performance in the industry.

Magic Lite has also teamed up with iLLUMA-Drive to present a cutting edge integrated multi-zone DC powered controller for a wide variety of LED fixtures. This new innovative controller operates from a DC input voltage and allows for a multitude of control options including full automation control and dimming.
